## MANAGEMENT'S DISCUSSION & ANALYSIS

The following Management's Discussion and Analysis ("MD&A") of the unaudited interim condensed financial performance and financial condition of United Corporations Limited ("United" or the "Company") for the first quarter of 2026 should be read in conjunction with: the December 31, 2025 Annual Report, including the MD&A, the Company's audited annual financial statements and the notes and supplementary financial information; and the unaudited quarterly condensed interim condensed financial statements and notes contained in this report. These financial statements have been prepared in compliance with International Financial Reporting Standards, as issued by the International Accounting Standards Board ("IFRS Accounting Standards"). The reporting currency for the Company is the Canadian dollar, and all amounts in the following discussion are in Canadian dollars. This MD&A is dated as of May 7, 2026.

This MD&A may contain certain forward-looking statements that are subject to risks and uncertainties that may cause the results or events mentioned in this discussion to differ materially from actual results or events. No assurance can be given that results, performance or achievement expressed in, or implied by, any forward-looking statements within this disclosure will occur, or if they do, that any benefits may be derived from them.

### **Change in Fiscal Year-End**

On November 5, 2025, the Board of Directors approved a change in the Company's fiscal year-end from March 31 to December 31, effective as of December 31, 2025. The change in fiscal year-end from March 31 to December 31 was made to align the Company's financial statement and continuous disclosure requirements with the majority of its industry peers, which operate on a calendar fiscal year-end.

### **The Company**

United is a closed-end investment corporation that trades on the Toronto Stock Exchange. United is an investment vehicle for long-term growth through investments in common equities, as management believes that over long periods of time, common equities, as an asset class, will outperform fixed-income instruments or balanced funds. From time to time, however, assets of the Company may be invested in interest-bearing short-term securities pending the selection of suitable equity investments.

The Company has been a closed-end investment corporation since 1929. The Common Shares have persistently traded at a discount to their net asset value, ranging from approximately a 20% discount to a 42% discount over the past 10 years. Management believes that shareholders who have invested in the Common Shares of the Company recognize that the Common Shares of the Company usually trade at a discount to their net asset value.

Closed-end investment corporations have the following benefits: they often allow investors the opportunity to purchase assets at a discounted price; they have management expense ratios which are generally much lower than those for actively-managed open-ended funds; and the management of a closed-end investment corporation's portfolio is not impacted by shareholder subscription or redemption activities.

United has no plans to become an open-ended investment fund.

## MANAGEMENT'S DISCUSSION & ANALYSIS

### Use of Non-GAAP Measures

This MD&A contains references to “net equity value per Common Share”, “growth in net equity value per Common Share”, “net investment income”, and “net investment income per Common Share”. These terms do not have any standardized meanings in GAAP (generally accepted accounting principles) and therefore may not be comparable to similar measures presented by other companies. The Company believes that these measures provide information useful to our shareholders in evaluating the Company's financial results.

Net equity value per Common Share is used by investors and management as a comparison to the market price of its Common Shares to determine the discount or premium at which the Company's Common Shares are trading, relative to the net equity value per Common Share. In order to determine its net equity value per Common Share, the Company deducts the cost of redemption of its Preferred Shares from its net assets.

Net investment income per Common Share is used by both investors and management to assess the approximate amount of dividends to be distributed on Common Shares. In order to determine its net investment income per Common Share, the Company deducts the dividends paid and accrued on its Preferred Shares from net investment income.

Net equity value per Common Share is calculated as follows (in thousands of dollars, except number of Common Shares and per Common Share amounts):

	<b>March 31 2026</b>	December 31 2025

In general, dividends earned on investments outside of North America peak in the first quarter of the fiscal year. From time to time, the Company receives additional one-time dividends arising from significant corporate transactions.

Overall returns are determined by the performance of the investment managers of the portfolio and may fluctuate significantly as illustrated by the past eight quarters. The returns generated by the investment managers may not correlate with benchmark returns. There is no guarantee that the Company will receive dividend income on its investments at current dividend payout levels.

If the annual net investment income is in excess of the quarterly dividends paid, an additional Common Share dividend equal to the excess will be paid following the end of the fiscal year.

An additional Common Share dividend of \$1.45 was paid in the first quarter of the current year as a result of the recent performance of the Company's global investment portfolio. An additional Common Share dividend of \$1.25 was paid on June 30, 2025 as net investment income per Common Share for the prior fiscal year was greater than quarterly Common Share dividends paid.

The Company's dividend policy is established by the Board of Directors at its discretion and is subject to change.

United Corporations Limited (“United” or the “Company”) is a closed-end investment corporation. The head office, principal address and registered office of the Company is located at 165 University Avenue, Toronto, Ontario, M5H 3B8.

United trades on the Toronto Stock Exchange under the symbols UNC, UNC.PR.A, UNC. PR.B and UNC.PR.C. United is an investment vehicle for long-term growth through investments in common equities, as management believes that over long periods of time, common equities, as an asset class, will outperform fixed-income instruments or balanced funds. From time to time, however, assets of the Company may be invested in interest-bearing short-term securities pending the selection of suitable equity investments.

The financial statements are presented in Canadian dollars which is the functional and presentation currency. These financial statements were approved by the Company’s Board of Directors on May 6, 2026.

### 2. Basis of presentation

These unaudited interim condensed financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting as issued by the International Accounting Standards Board and follow the same accounting policies and methods as the most recent annual financial statements. These unaudited interim condensed financial statements do not include all of the disclosures required under International Financial Reporting Standards for annual financial statements and should be read in conjunction with the notes to the Company’s audited financial statements for the year ended December 31, 2025.

### 3. Critical accounting estimates and judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Company has made in preparing the financial statements:

#### *Deferred taxes*

Estimates and assumptions are used primarily in the determination of the Company’s deferred tax assets and deferred tax liabilities, as the income tax rates used are dependent on an assumption as to when deferred tax is expected to be realized.

### 4. Financial instruments

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted unadjusted prices in active markets for identical assets or liabilities (Level 1);
- Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly (Level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

At March 31, 2026, the Company had \$2,373,386 (December 31, 2025 - \$2,623,340) of Level 1 equity investments. There were no year-to-date transfers between Level 1, 2 or 3 equity investments.
