NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

The Company's external auditors, PricewaterhouseCoopers LLP, have not performed a review of these interim financial statements of United Corporations Limited.

⁽²⁾ See Management's Discussion and Analysis for Use of Non-GAAP Measures.

⁽³⁾ This additional dividend represents the once-per-year distribution of the prior year's annual net investment income, after payment of Preferred Share dividends and payment of quarterly dividends.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following Management's Discussion and Analysis ("MD&A") of the unaudited condensed financial performance and financial condition of United Corporations Limited ("United" or the "Company") for the third quarter of fiscal 2015 should be read in conjunction with: the March 31, 2014 Annual Report, including the MD&A, the Company's audited annual financial statements and the notes and supplementary financial information; the Company's MD&A and unaudited consensed financial statements and notes for the previous guarters of fiscal 2015, and the unaudited quarterly condensed financial statements and notes contained in this report. These unaudited condensed financial statements have been prepared in compliance with International Financial Reporting Standards ("IFRS") as published by the International Accounting Standards Board ("IASB"). The Company adopted this basis of accounting in fiscal 2015 as required by Canadian securities legislation and the Canadian Accounting Standards Board. Previously, the Company prepared its financial statements in accordance with Canadian generally accepted accounting principles as defined in Part V of the CICA Handbook ("Previous Canadian GAAP"). The Company has consistently applied the accounting policies used in the preparation of its opening IFRS statement of financial position at April 1, 2013 and throughout all periods presented, as if these policies had always been in effect. Note 3 discloses the impact of the transition to IFRS on the Company's reported financial position, financial performance and cash flows, including the nature and effect of significant changes in accounting policies from those used in the Company's financial statements for the year ended March 31, 2014 and the nine months ended December 31, 2013 prepared under Previous Canadian GAAP. The reporting currency for the Company is the Canadian dollar, and all amounts in the following discussion are in Canadian dollars.

This MD&A may contain certain forward-looking statements that are subject to risks and uncertainties that may cause the results or events mentioned in this discussion to differ materially from actual results or events. No assurance can be given that results, performance or achievement expressed in, or implied by, any forward-looking statements within this discussion will occur, or if they do, that any benefits may be derived from them.

First-time Adoption of IFRS

Over the past year, the Company has provided disclosure in its MD&A on how the transition to IFRS was expected to impact its financial statements. The Company's results, including for comparative periods, are now being reported in accordance with IFRS. Note 3 of the quarterly condensed financial statements in this report contains a detailed description of the Company's transition to IFRS. The note disclosure includes a reconciliation of financial statements reported under Previous Canadian GAAP to those under IFRS for the three and nine months ended December 31, 2013 and for the year ended March 31, 2014 as well as explanations of the individual adjustments that resulted from the transition.

The IFRS-related disclosures and values in this document have been prepared using the standards and interpretations currently issued. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending March 31, 2015 could result in restatement of these quarterly financial statements, including the transition adjustments recognized on conversion to IFRS.

The Company

United is a closed-end investment corporation that trades on the Toronto Stock Exchange. United is an investment vehicle for long-term growth through investments in common equities, as management believes that over long periods of time, common equities, as an asset class, will outperform fixed-income instruments or balanced funds. From time to time, however, assets of the Company may be invested in interest-bearing short-term securities pending the selection of suitable equity investments.

The Company has been a closed-end investment corporation since 1929 and has never bought back its Common Shares. The Common Shares have historically traded at a discount to their net asset value, ranging from as high as a 45% discount to as low as a 20% discount. Management believes that shareholders who have invested in the Common Shares of the Company recognize that the Common Shares of the Company usually trade at a discount to their net asset value.

Closed-end funds have the following benefits: they often allow investors the opportunity to purchase assets at a discounted price; they have management expense ratios which are generally much lower than those for openended funds; and the management of a closed-end fund's portfolio is not impacted by shareholder subscription or redemption activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS

United has no plans to become an open-ended investment fund.

The external investment portfolio of the Company is managed by Jarislowsky Fraser Limited ("Jarislowsky") and ValueInvest Asset Management S.A. ("ValueInvest"). Each of the managers has a global equity mandate.

The Company has a long-term investment in Algoma Central Corporation ("Algoma"). Algoma and United are related parties. In management's view, the investment in Algoma is consistent with the Company's investment strategy and contributes to achieving the investment objective of the Company. Further related party information is provided in Note 8 to the financial statements in the 2014 Annual Report.

Investment Strategy

The objective of the Company is to earn an above-average rate of return, primarily through long-term capital appreciation and dividend income. Short-term volatility is expected and tolerated. Net equity value and net investment income may vary significantly from period to period depending on the economic environment and market conditions. Management remains confident that the Company's investment strategy will reward shareholders over the long term.

The investment portfolio of the Company comprises a mix of predominantly foreign equities. During the fourth quarter of the previous fiscal year, the Board of Directors announced that, effective January 13, 2014, it had allocated its assets evenly between the Company's two external investment managers, Jarislowsky and ValueInvest, in order to diversify manager risk. As a consequence of this decision, approximately \$300 million of assets managed by Jarislowsky was transferred to ValueInvest.

Use of Non-GAAP Measures

Current Canadian GAAP is IFRS for these financial statements. This MD&A contains references to "net equity value per Common Share" and "net investment income per Common Share". These terms do not have any standardized meaning in GAAP and therefore may not be comparable to similar measures presented by other companies. The Company believes that these measures provide information useful to our shareholders in evaluating the Company's financial results.

Net equity value per Common Share is used by investors and management as a comparison to the market price of its Common Shares to determine the discount or premium at which the Company's Common Shares are trading, relative to the net equity value per Common Share. In order to determine its net equity value per Common Share, the Company deducts the cost of redemption of its Preferred Shares from its net assets.

Net investment income per Common Share is used by both investors and management to assess the approximate amount of dividends to be paid on Common Shares. In order to determine its net investment income per Common Share, the Company deducts the dividends paid on its Preferred Shares.

Net equity value per Common Share is calculated as follows (in thousands of dollars, except number of Common Shares and per Common Share amounts):

	Dec. 31 2014	March 31 2014
Net assets	\$ 1,294,671	\$ 1,221,034

Net Equity Value per Common Share

For the quarter ended December 31, 2014, the Company's net equity value per Common Share increased to \$105.54 from \$100.48 at September 30, 2014. With dividends reinvested at month-end net equity values, the Company's net equity value return was 5.2% in fiscal 2015 compared to a return of 10.0% for the same period in the prior fiscal year. On a fiscal year-to-date basis, the net equity value per Common Share increased to \$105.54 from \$99.50 at March 31, 2014. The net equity value return for the fiscal year to date was 7.5% compared to a return of 18.2% in the prior fiscal period.

As the Company is a taxable Canadian corporation, its returns are net of a provision for income taxes on investment income and realized gains (losses) on investments, and net of a deferred income tax provision on its change in unrealized appreciation of investments.

In Canadian dollar terms, benchmark returns on a total return (capital gains plus dividends) basis, before deducting any applicable taxes, were as follows:

Operating Results

Net income

The Company's net income in the third quarter of fiscal 2015 decreased to \$64,244,000 compared to \$106,012,000 for the third quarter of fiscal 2014. On a year-to-date basis, net income decreased to \$90,139,000 from \$183,353,000 in fiscal 2014. On a per Common Share basis, net income for the quarter decreased by 39.4% to \$5.26 in fiscal 2015 compared to \$8.68 in fiscal 2014 and on a year-to-date basis decreased by 50.9% to \$7.37 from \$15.01 in the prior fiscal period.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The net realized gain for the Company was \$14,345,000 for the third quarter of fiscal 2015 compared to a net realized gain of \$10,350,000 for the same period in the prior year, an increase of \$3,995,000 or 38.6%. On a year-to-date basis, the net realized gain was \$38,281,000 for fiscal 2015 compared to a net realized gain of \$46,584,000 for fiscal 2014, a decrease of \$8,303,000 or 17.8%. The largest year-to-date contributors to the net realized gain during fiscal 2015 were the sales of Allergan, Inc., Philip Morris International Inc., and Merck & Co., Inc.

During the current fiscal quarter, the Company's change in unrealized appreciation was \$55,140,000 compared to \$107,906,000 for the same period in the prior year, a decrease of \$52,766,000. On a year-to-date basis, the Company's change in unrealized appreciation was \$45,179,000 compared to \$147,626,000 during the prior year, a decrease of \$102,447,000. During the quarter, North American equities increased by \$55,279,000 offset by a decline of \$139,000 in equities outside of North America. On a year-to-date basis, North American equities increased by \$66,922,000 offset by a decline of \$21,743,000 in equities outside of North America.

Net investment income

The Company's net investment income in the third quarter of fiscal 2015 increased to \$3,966,000 compared to \$3,425,000 for the third quarter of fiscal 2014, an increase of 15.8%. On a year-to-date basis, net investment income increased to \$17,733,000 from \$14,876,000 for the same period in the prior year, an increase of 19.2%. On a per Common Share basis, net investment income for the quarter increased to \$0.32 in 2015 compared to \$0.28 in 2014 and on a year-to-date basis increased to \$1.43 in 2015 compared to \$1.20 in 2014.

Foreign dividend income in the third quarter increased by 20.0% to \$6,635,000 from \$5,527,000 for the same quarter in the prior year and on year-to-date basis increased by 22.0% to \$27,525,000 from \$22,555,000 in fiscal 2014. The year-over-year increases in both periods occurred primarily as a result of higher-yielding securities held in the current year compared to the same periods in the prior year.

Interest and securities lending income increased to \$62,000 for the third quarter of the year compared to \$41,000 for the same quarter in the prior year, and on a year-to-date basis increased to \$523,000 compared to \$356,000 in the prior year. During the current fiscal quarter, the Company earned approximately \$53,000 of securities lending income compared to \$33,000 in the prior year, and on a year-to-date basis, the Company earned approximately \$485,000 of securities lending income compared to \$321,000 in the prior year.

Expenses during the quarter increased to \$1,646,000 in fiscal 2015 compared to \$1,262,000 for the same period in the prior year, and on a year-to-date basis increased to \$4,957,000 compared to \$3,732,000 in the prior year. The majority of the increase in both periods relates primarily to an increase in investment management and administrative costs resulting from a higher average investment portfolio compared to the prior year and increased investment management costs resulting from the \$300 million reallocation of assets between Jarislowsky and ValueInvest that occurred in the fourth quarter of the prior fiscal year. Directors and officer's remuneration in the third quarter has increased to \$85,000 in fiscal 2015 compared to \$58,000 for the same period in the prior year, and on a year-to-date basis increased to \$265,000 compared to \$175,000 in the prior year. The majority of the increase in both periods relates to an increase in compensation paid to the Chairman and President.

Investment income is derived primarily from dividend income that is earned by the Company. While North American investments usually pay regular quarterly dividends, investments outside of North America often pay less frequently. In general, dividends earned on investments outside of North America peak in the first quarter of the fiscal year. There is no guarantee that the Company will receive dividend income on its investments at current dividend payout levels.

Overall returns are determined by the performance of the investment managers of the portfolio and may fluctuate significantly as illustrated by the past eight quarters. The returns generated by the investment managers may not correlate with benchmark returns.

Share Data

As at December 31, 2014, the following shares were issued and outstanding: 52,237 First Preferred Shares, 80,290 Second Preferred Shares, 1959 Series, 119,710 Second Preferred Shares, 1963 Series and 12,194,193 Common Shares.

Liquidity and Capital Resources

Quarterly dividends were paid on the Common Shares and Preferred Shares. The quarterly per share dividend was \$0.20 on the Common Shares and \$0.375 for each Preferred Share series. Payment of the Company's dividends is funded by net investment income. For the quarter ended December 31, 2014, net investment income was \$0.32 (fiscal 2014 - \$0.28) per Common Share as compared to Common Share dividend payments of \$0.20 (fiscal 2014 - \$0.20) per share. On a fiscal year-to-date basis, net investment income per Common Share was \$1.43 (fiscal 2014 - \$1.20) as compared to Common Share quarterly dividend payments of \$1.33 (fiscal 2014 - \$1.23) per share which includes the additional cash dividend of \$0.73 (fiscal 2014 - \$0.63) per Common Share, paid to shareholders. This additional dividend represents a distribution of the balance of net investment income (after payment of Preferred Share dividends) for the prior fiscal year.

The Company's dividend policy is to distribute annual net investment income, after payment of Preferred Share dividends. The distributions are composed of \$0.20 quarterly dividends together with an additional dividend representing the balance of net investment income for the previous fiscal year. This additional dividend is paid in the first quarter following the fiscal year end. The Company's dividend policy is established by the Board of Directors at its discretion and is subject to change.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

1. Description of Company and summary of operations

United Corporations Limited ("United" or the "Company") is a closed-end investment corporation. The head office, principal address and registered office of the Company is located at Tenth Floor, 165 University Avenue, Toronto, Ontario, M5H 3B8.

United trades on the Toronto Stock Exchange under the symbols UNC, UNC PR.A., UNC PR.B. and UNC PR.C. United is an investment vehicle for long-term growth through investments in common equities, as management believes that over long periods of time, common equities, as an asset class, will outperform fixed-income instruments or balanced funds. From time to time, however, assets of the Company may be invested in interest-bearing short-term securities pending the selection of suitable equity investments.

The condensed financial statements are presented in Canadian dollars. These condensed financial statements were approved by the Company's Board of Directors on February 3, 2015.

2. Basis of presentation and adoption of IFRS

These unaudited condensed financial statements have been prepared in compliance with International Financial Reporting Standards ("IFRS") as published by the International Accounting Standards Board ("IASB") applicable to the preparation of quarterly financial statements, including IAS 34 and IFRS1. The Company adopted this basis of accounting in fiscal 2015 as required by Canadian securities legislation and the Canadian Accounting Standards Board. Previously, the Company prepared its financial statements in accordance with Canadian generally accepted accounting principles as defined in Part V of the CICA Handbook ("Previous Canadian GAAP"). The Company has consistently applied the accounting policies used in the preparation of its opening IFRS statement of financial position at April 1, 2013 and throughout all periods presented, as if these policies had always been in effect. Note 3 discloses the impact of the transition to IFRS on the Company's reported financial position, financial performance and cash flows, including the nature and effect of significant changes in accounting policies from those used in the Company's financial statements for the year ended March 31, 2014 and the nine months ended December 31, 2013 prepared under Previous Canadian GAAP.

3. First-time adoption of IFRS

The Company has adopted IFRS effective April 1, 2014. Prior to the adoption of IFRS, the Company prepared its financial statements in accordance with Previous Canadian GAAP. The Company's financial statements for the year ending March 31, 2015 will be the Company's first annual financial statements prepared in accordance with IFRS. Accordingly, the Company will make an unreserved statement of compliance with IFRS beginning with its fiscal 2015 annual financial statements.

The Company has applied IFRS 1 First-time Adoption of International Financial Reporting Standards in preparing these financial statements, with a transition date of April 1, 2013. In accordance with IFRS, the Company has:

- provided an opening balance sheet at April 1, 2013 restated from Previous Canadian GAAP;
- provided comparative financial information restated from Previous Canadian GAAP;
- · applied the same accounting policies throughout all periods presented; and
- retrospectively applied all IFRS standards except for certain optional exemptions and mandatory exceptions applicable for first-time adopters of IFRS that the Company has applied, as discussed below.

The policies applied in these condensed quarterly financial statements are based on IFRS issued and outstanding as of February 3, 2015, the date the Board of Directors approved these financial statements. Any subsequent changes to IFRS that are given effect in the Company's annual financial statements for the year ending March 31, 2015 could result in restatement of these quarterly financial statements, including the transition adjustments recognized on conversion to IFRS.

NOTES TO FINANCIAL STATEMENTS

(Unaudited)

The effect of the Company's transition to IFRS is summarized in this note as follows:

Transition elections

The only voluntary election adopted by the Company upon transition was the ability to designate a financial asset or financial liability at fair value through profit and loss ("FVTPL") upon transition to IFRS. All financial assets designated at FVTPL upon transition were previously carried at fair value under Previous Canadian GAAP as required by Accounting Guideline 18, Investment Companies.

Statement of cash flows

Under Previous Canadian GAAP, the Company was exempt from providing a statement of cash flows. IAS 1 requires that a complete set of financial statements include a statement of cash flows for the current and comparative periods, without exception.

Revaluation of investments at Fair Value Through Profit and Loss

Under Previous Canadian GAAP, the Company measured the fair values of its investments in accordance with Section 3855, Financial Instruments — Recognition and Measurement, which required the use of bid prices for long positions and ask prices for short positions, to the extent such prices are available. Under IFRS, the Company measures the fair values of its investments using the guidance in IFRS 13, Fair Value Measurement ("IFRS 13"), which requires that if an asset or a liability has a bid price and an ask price, then its fair value is to be based on a price within the bid-ask spread that is most representative of fair value. The Company uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Company determines the point within the bid-ask spread that is most representative of fair value based on the specific facts and circumstances. As a result, upon adoption of IFRS an adjustment was recognized to increase the carrying amount of the Company's investments by \$416,000 at April 1, 2013, \$363,000 as at December 31, 2013 and \$487,000 at March 31, 2014, and to increase deferred income taxes by \$55,000 at April 1, 2013, \$48,000 as at December 31, 2013 and \$65,000 at March 31, 2014. The impact of this adjustment was to increase the Company's net income by \$61,000 for the year ended March 31, 2014 and to decrease the Company's net income by \$315,000 for the three months ended December 31, 2013, and to decrease the Company's net income by \$46,000 for the nine months ended December 31, 2013.

Reclassification of net provision for refundable dividend taxes on hand

Under Previous Canadian GAAP, the Company presented its net provision for refundable dividend taxes on hand in its statement of retained earnings. Upon adoption of IFRS, the net provision for refundable dividend taxes on hand is recognized as a component of the provision for income taxes. The impact of this adjustment was to decrease the Company's net income by \$2,000 for the year ended March 31, 2014. There was no impact of this adjustment to the Company's net income for the three months or nine months ended December 31, 2013.

Comprehensive income

The Company does not have any other comprehensive income or comprehensive income and therefore reports only net income in its statement of income.

Reclassification adjustments

In addition to the measurement adjustments noted above, the Company reclassified certain amounts upon transition in order to conform to its financial statement presentation under IFRS. Under Previous Canadian GAAP, the Company presented cash and short-term investments in these statements of net assets as separate line items. Under IFRS, these two items are combined and presented separately as cash and cash equivalents. Previous Canadian GAAP used the accounting term future income taxes whereas IFRS uses the comparable accounting term deferred taxes. Under Previous Canadian GAAP, in the statement of operations, the provision for income taxes was previously netted against the net change in unrealized appreciation of investments. In contrast, under IFRS, this provision for income taxes is now reclassified to the provision for income taxes in the statement of income. In addition, the IFRS statement of income line item, change in unrealized appreciation, is the reclassification of the Previous Canadian GAAP line item, net change in unrealized appreciation of investments, adjusted for the previously mentioned reclassification of the corresponding provision for income taxes.

4. Critical accounting estimates and judgments

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Company has made in preparing the financial statements:

Deferred taxes

Estimates and assumptions are used primarily in the determination of the Company's deferred tax liabilities, as the income tax rates used in determining the liability is dependent on an assumption as to when a deferred tax liability is expected to be realized.

5. Classification of fair value measurements

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted unadjusted prices in active markets for identical assets or liabilities (Level 1);
- Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly (Level 2); and
- Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (Level 3).

At December 31, 2014, March 31, 2014 and April 1, 2013, all of the Company's investments were Level 1 investments. There were no year-to-date transfers between Level 1 and Level 2 investments and the Company had no Level 3 investments.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

6. Fair value change in investments

The fair value change in investments is comprised as follows:

	Three months ended December 31			Nine months ended December 31				
		2014		2013		2014		2013
		(000's)						
Net realized gain Change in unrealized appreciation	\$	14,345 55,140	\$	10,350 107,906	\$	38,281 45,179	\$	46,584 147,626
	\$	69,485	\$	118,256	\$	83,460	\$	194,210

7. Related party transactions

The ultimate controlling party of the Company and its related parties is The Honourable Henry N.R. Jackman together with a trust created in 1969 by his father, Henry R. Jackman.

8. Subsequent event

Common Share dividends of \$0.20 per Common Share, and \$0.375 per Preferred Share for First Preferred Shares, Second Preferred Shares, 1959 Series and Second Preferred Shares, 1963 Series, were declared by the Board of Directors at its meeting on February 3, 2015, with a record and payable date of May 6, 2015 and May 15, 2015, respectively.
